SWINDLING IN TRADE.

Most of our imports come from the United States, which is natural, seeing the advantages we derive from the Reciprocity Treaty, but we are inclined to think, judging from recent discoveries, that it will change its direction if the California manufacturers and shippers do not take care. In buying an article the purchaser always likes to get good value for his money, and he will inevitably go in the course of time to where he gets the best value for his outlay. If he is deceived once he generally takes good care not to be deceived again. And it is a sure thing that many of our prominent importers have been deceived in the quality of the articles which they have bought in San Francisco lately. The brands on the said articles were the best, and the prices paid were also the best, and yet when the article has arrived here and been sold in the state in which it came down it has been found to be of the poorest description.

Now we do not say that this is the rule, but it has happened, and that so often that people are beginning to grow suspicious. There is a time-worn story of the smartness of a Yankee trader who sharpened the other end of his cargo of shoe-pegs and sold them for oats, but there is no record of his having played the same trick successfully a second time. And we repeat what we have before said that our trade will ultimately find its way into other channels if some means be not taken to prevent this trade swindling.

Our esteemed contemporary, the *Saturday Press*, in its issue of Sept. 30th, published a letter on this subject from a victim who enumerated many cases of imposition. We have to add a case that came under our notice where no less than 10 bbls. of salmon were sold here, in good faith, as prime salmon and when opened, were found to be nothing but mush. The merchant here of course has to stand the loss while the packer in California thinks of the amount of money he has gained by down-right robbery. We can assure him however, that his present gain is his future loss.

The Chamber of Commerce here ought to take the matter in hand and urge upon the Government, the appointment of an inspector whose duty it would be to examine everything in the food line brought here and certify to its good condition and quality, and without whose certificate nothing of the kind could be delivered from the ship. Imposition and adulteration in food trade is now attracting the attention of every civilized country and laws are being made to protect the interests of consumers, and we ought to have some steps taken here and not allow such impositions to obtain any benefit from us.

FERTILIZERS are in great demand, so we hear.

"No change in the Ministry till 1884." "Is that so?"

The Kale leaves for San Francisco to-morrow.

The Chiclayo leaves for Royal Roads to-day.

SLATES are thin. No new names for ministers lately. How is that?

A LITTLE FOW ON Monday evening on Hotel street. Nothing much done but plenty of talk afterwards.

MAN fell over Nuuanu street bridge this morning. Slightly injured.

Our prophet predicts that the comet will rush us between the 15th and 20th of November.

We hear that the Ahumahu School has been abandoned and will be leased for a ranch. It would make a pretty spot for a hotel.

The boat crews are practising every morning for the forthcoming races on the 16th November. It will be a tight struggle for victory.

SOME one wants to know if the Auditor-General will have to examine into the charges of the guns on Punchbowl Hill.

We have found out where 265 Beretania street is after much difficulty, but we don't give cheap adv's.

Why do certain young gentlemen go to the "Elite" for ice cream so often? Don't they get enough fanning at home, to keep them cool?

We call attention to some very fine specimens of apples grown at Mrs. Makee's place, Ulupalakua, Maui, and now on exhibition in J. W. Robertson & Co.'s window. These apples are named "Rhode Island Greenings."

A horse got frightened at the steam roller on Nuuanu street on Monday afternoon, and in less than a minute it stepped right out of the harness, leaving its driver disconsolate in the wagon.

THERE is a very fine article on Mr. Gibson's career in the San Francisco Daily *Examiner* of the 10th September of which a copy is now hung up in J. W. Robertson & Co.'s window. What we want to know is who inspired it and where, oh! where, did he get his facts.

We hear that a contract for the repairs and extension of the Insane Asylum has been given without a tender for the sum of \$5,800 and the appropriation for the whole biennial period is only \$6,900. So what repairs can be done during the next year with \$200.

It is a fact worth knowing that the Liverpool (England) Society for the Prevention of Cruelty to Animals gives away a large sum annually in prizes to drivers and owners of horses who dispense with the bearing rein. If we had a local society of the same kind it could find plenty to do in a similar direction. Who will start it?

THE Waxworks continues to be exhibited daily and nightly, and draws a large number. The new group of Moses in the Desert, striking the water from the rock is a magnificent work of art. The music discoursed by the brothers Kohler and Mr. Hydes keeps up its reputation. The whole affair is in fact the best half-dollar's worth we have had for a long while.

THERE is a considerable quantity of spurious coin in circulation just now. Tradesmen are being victimized every day. People should look to the money they receive and promptly give every one in charge who attempt to pass these worthless imitations so that the practice may

be stopped. It is strange, too, that the false coins should be imitations of the coinage of other countries than the United States.

WE notice that Mr. Dodd has posted a notice in the Omnibus running to Waikiki, offering a reward of \$20 for the apprehension of the miscreant who cut the "lining" in the Bus. We hope Mr. Dodd will be able to find out the culprit as he deserves a term on the reef which he will surely receive if Mr. Dodd nails him.

MR. GRIP, the Norwegian Commissioner, and Mr. Cleghorn, Immigration Commissioner for the Government, went to Hilo yesterday afternoon on the Likelike, to investigate complaints of Norwegian laborers in that district. Mr. Grip will stay some time, but Mr. Cleghorn will return on Sunday.

THE Government have received a shipment of mangosteen and durian trees from Singapore. They are now in charge of Prof. Jaeger, the Government curator of imported plants, who is carefully transplanting them from the Wardian cases. They will be ready in two or three months for distribution. We are sorry to have to state that some unmitigated scamp stole no less than 49 of these valuable trees en route.

THE attention of the "City Fathers," or anybody else's father, who has charge of our roads should be given to the sad condition of the road which was recently made at a great expense over the sand in front of the King's residence at Waikiki. The dry weather and constant traffic of wagons has reduced the road to powder, which blows away with every puff of wind. A little black sand or a watering cart would now save this road, but if not attended to at once it will soon need extensive repairs. The benefit done by the heavy showers lately will show what good could be done by a water cart.

MR. CAMPBELL's buildings on Hotel street are now about completed, and the row of stores sets off that side of Hotel street to the Parisian restaurant very neatly. The upper floors have been handsomely laid out as a living apartments which Mr. James Dodd will occupy as a family residence. The rooms are large and spacious, and Mr. Dodd has fitted them up in elegant style with all modern improvements including the telephone, speaking tubes, &c. Mr. C. E. Williams imported all the furniture and upholstery for the mansion, and it is, to say the least one of the finest furnished and most convenient houses in the city of Honolulu.

MR. GEO. LUCAS is now putting up a very elaborate stable and coach house for Mr. C. R. Bishop. The material used is brick.

THE Hon. A. S. Cleghorn is working hard at improving the public places committed to his charge. We have already noticed the improved appearance of Emma Square, and now we hear that Thomas Square is being laid out and mapped out. Spaces have been left for fountain monuments, &c. So that, we trust, in a short while we shall have another place of public resort.
